

ENVIRONMENTAL POLICY

Progress towards the implementation of the environmental management system made the Direction strongly conscious of its significant environmental aspects, and the need to control them through a new way of acting.

Priority objective of the Direction is to transmit the knowledge of environmental impacts that occur daily in all the company's staff. Only by raising awareness to the environment and the full involvement of all relevant staff you can have claim to operate not only in accordance with the principles of environmental protection, but also on the principles of pollution prevention

Finelvo Srl has the following objectives:

- commitment to compliance with applicable legal requirements and with other requirements to which relate to its environmental aspects;
- commitment to pollution prevention and continuous improvement;
- monitoring of environmental impacts related to the activity on which the company can exercise control (direct or indirect);
- ensuring through adequate resources the SGA environmental achieves its goals, have been set;
- pursuing the possible opportunities to use the environmental key business development: expand into new market sectors, the search for new clients that are sensitive to issues of sustainability, etc.;
- consider the opportunities offered by environmental variables at different stages of marketing strategies, in particular, implementing the design criteria for attention to the environmental impact, life cycle perspective;
- Improvement of waste management from the perspective of recovery.

To achieve these objectives, Finelvo Srl promotes and develops the following activities:

- direct, continuous and permanent commitment of the Direction in the management of the environmental management system;
- direct full and conscious involvement and participation of employees at all levels and in the implementation of the environmental management system;
- involvement of suppliers regarding environmental issues and aspects related to the activities of the company-monitoring of environmental objectives in the course of the management review;

Senior management is responsible for establishing and disseminating environmental policy making sure it is documented, understood, supported, implemented and communicated to all persons working for Finelvo S.r.l. and/or on its behalf through posters in settlement areas, the publication on the website and delivery to suppliers.

This document is regularly reviewed during management review

The policy is communicated to interested parties through publication on the company's website.
